

SL. NO.	CONTENTS	PAGE NO.
	CHAPTER 1: GENERAL INTRODUCTION	1-9
1.1	Classification of Class Insecta	1
1.2	Introduction to Order Hemiptera	1-2
1.3	Suborder: Heteroptera	2
1.3.1	Systematic account of water bugs	3-4
1.3.2	General morphology	5
1.3.3	Life cycle	5-6
1.3.4	Adaptations to aquatic life	6
1.3.5	Predatory behaviour	7
1.4	Economic importance of water bugs	7
1.5	Significance of the present study	8-9
1.6	Objectives of the proposed work	9
	Plate	
	CHAPTER 2: TAXONOMY	10-91
2.1	Introduction	10-11
2.2	Review of Literature	11-31
2.3	Materials and Methods	32-36
2.3.1	Study area	32-34
2.3.2	Sample collection and preservation	35
2.3.3	Identification of specimens	35-36
2.4	Results	36-86
2.5	Discussion	86-91
	Plates	

	CHAPTER 3: TAXONOMIC KEY	92-103
3.1	Introduction	92
	Key	92-103
	CHAPTER 4: BIOCONTROL ON MOSQUITO LARVAE OF <i>CULEX QUINQUEFASCIATUS</i> SAY	104-116
4.1	Introduction	104-105
4.2	Review of Literature	105-108
4.3	Materials and Methods	109-111
4.3.1	Collection of water bugs	109
4.3.2	Identification and separation of water bugs	109
4.3.3	Rearing of mosquito larvae	110
4.3.4	Experimental design	110
4.3.5	Data analysis	111
4.4	Results	111-115
4.5	Discussion	115-116
	Plates	
	SUMMARY	117-118
	RECCOMENDATIONS	119
	REFERENCES	120-132
	APPENDICES	133-174
	PUBLISHED PAPER	

LIST OF TABLES INCLUDED IN CHAPTERS

NO.	NAME OF TABLES
1.	Different types of aquatic habitats selected for the study
2.	Multiple comparison of the predation potential of three selected water bugs
3.	Correlation coefficient of time, density, and death of prey
4.	Predatory efficiency of the three predators on different prey densities

LIST OF FIGURES INCLUDED

NO.	NAME OF FIGURES IN CHAPTERS
1.	Map of the study area of 14 Districts of Kerala
2.	The estimated marginal means of death of prey by different predators with respect to time
3.	The estimated marginal means of death of prey by different predators with respect to density
	NAME OF FIGURES IN PLATES
4.	Life cycle stages of <i>Diplonychus molestus</i> Dufour, 1863
5.	Different aquatic habitats selected for the study
6.	Collection of specimens during field studies
7.	Sorting of specimens and preserved in a bottle containing 70 % alcohol
8.	<i>Laccotrephes griseus</i> Guerin-Meneville, 1844
9.	<i>Laccotrephes ruber</i> Linnaeus, 1764
10.	<i>Cercotmetus pilipes</i> Dallas, 1850
11.	<i>Ranatra varipes atropa</i> Montandon, 1903
12.	<i>Ranatra varipes varipes</i> Stal, 1861
13.	<i>Ranatra filiformis</i> Fabricius, 1790
14.	<i>Ranatra elongata</i> Fabricius, 1790
15.	<i>Diplonychus molestus</i> Dufour, 1863
16.	<i>Diplonychus rusticus</i> Fabricius, 1781
17.	<i>Lethocerus indicus</i> Lepeletier & Serville, 1825
18.	<i>Sigara (Vermicorixa) kempi</i> Hutchinson, 1940
19.	<i>Sigara (Tropocorixa) promontoria</i> Distant, 1910
20.	<i>Micronecta scutellaris scutellaris</i> Stal, 1858
21.	<i>Micronecta quadristrigata</i> Breddin, 1905
22.	<i>Micronecta haliploides</i> Horvath, 1904
23.	<i>Micronecta ludibunda</i> Breddin, 1905

24.	<i>Micronecta desertana desertana</i> Distant, 1920
25.	<i>Micronecta khasiensis</i> Hutchinson, 1940
26.	<i>Helocoris indicus</i> Montandon, 1897
27.	<i>Anisops nasutus</i> Fieber, 1851
28.	<i>Anisops breddini</i> Kirkaldy, 1901
29.	<i>Anisops bouvieri</i> Kirkaldy, 1904
30.	<i>Anisops barbatus</i> Brooks, 1951
31.	<i>Anisops sardeus sardeus</i> Herrich-Shaffer, 1850
32.	<i>Anisops niveus</i> Fabricius, 1775
33.	<i>Anisops paranigrolineatus</i> Brooks, 1951
34.	<i>Anisops tahitiensis</i> Lundblad, 1934
35.	<i>Anisops occipitalis</i> Breddin, 1905
36.	<i>Nychia sappho</i> Kirkaldy, 1901
37.	<i>Enithares ciliata</i> Fabricius, 1798
38.	<i>Paraplea frontalis</i> Fieber, 1844
39.	<i>Paraplea liturata</i> Fieber, 1844
40.	<i>Tiphotrephes indicus</i> Distant, 1910
41.	<i>Limnogonus (Limnogonus) fossarum fossarum</i> Fabricius, 1775
42.	<i>Limnogonus (Limnogonus) nitidus</i> Mayr, 1865
43.	<i>Limnometra fluviorum</i> Fabricius, 1798
44.	<i>Limnometra anadyomene</i> Kirkaldy, 1901
45.	<i>Neogerris parvulus</i> Stal, 1859
46.	<i>Aquarius adalaides</i> Dohrn, 1860
47.	<i>Rhagadotarsus kraepelini</i> Breddin, 1905
48.	<i>Ptilomera (Ptilomera) agroides</i> Schmidt, 1926
49.	<i>Ptilomera (Ptilomera) assamensis</i> Hungerford & Matsuda, 1965
50.	<i>Ptilomera (Ptilomera) laticaudata</i> Hardwicke, 1823

51.	<i>Pleciobates nostras</i> Thirumalai, 1986
52.	<i>Pleciobates indicus</i> Thirumalai, 1986
53.	<i>Amemboa kumari</i> Distant, 1910
54.	<i>Metrocoris darjeelingensis</i> Basu, Polhemus & Subramanian, 2016
55.	<i>Metrocoris communoides</i> Chen & Neser, 1993
56.	<i>Ventidius (Ventidius) aquarius</i> Distant, 1910
57.	<i>Naboandelus signatus</i> Distant, 1910
58.	<i>Lathriobates raja</i> Distant, 1910
59.	<i>Cylindrostethus productus</i> Spinola, 1840
60.	<i>Microvelia (Microvelia) douglasi</i> Scott, 1874
61.	<i>Microvelia (Dilutovelina) leveillei leveillei</i> Lethierry, 1877
62.	<i>Microvelia albomaculata</i> Distant, 1909
63.	<i>Microvelia (Microvelia) diluta</i> Distant, 1909
64.	<i>Neolardus typicus</i> Distant, 1903
65.	<i>Thirumalaia ocularis</i> Zettel & Laciny, 2021
66.	<i>Rhagovelia (Neorhagovelia) sumatrensis</i> Lundblad, 1936
67.	<i>Mesovelia vittigera</i> Horvath, 1895
68.	<i>Mesovelia horvathi</i> Lundblad, 1934
69.	<i>Hydrometra greeni</i> Kirkaldy, 1898
70.	<i>Hydrometra butleri</i> Hungerford & Evans, 1934
71.	<i>Timasius fenestratus</i> Zettel, 2013
72.	<i>Valleriola cicindeloides</i> Distant, 1908
73.	Predators collected from different aquatic habitats
74.	Experimental predators and preys
75.	Three sets of experimental groups consist of test and control
76.	Predators capturing the mosquito larvae, <i>Culex quinquefasciatus</i> Say, 1823
77.	Remnant bodies of mosquito larvae

LIST OF APPENDICES INCLUDED

NO.	NAME OF APPENDICES
1.	List of collection sites, geographical coordinates, and habitats
2.	Legends used for locations
3.	Systematic account of total 65 species in the present study
4.	List of previously recorded (35 species), new records from South India (13 species) & Kerala (30 species) in the present study
5.	The distribution map of 30 new recorded species from Kerala
6.	Common names of all the collected families of water bugs
7.	List of studied aquatic habitats based on the presence/absence of collected species

LIST OF ABBREVIATIONS USED

sp.	: Species
nov.	: nova (Latin), new
♂	: Male
♀	: Female
Coll	: Collected by
N	: North
E	: East
M	: Metre
mm	: Millimetre
µm	: Micrometre
ml	: Millilitre
km	: Kilometre
<i>et al.</i>	: <i>et alia</i> (Latin), and others
viz.	: Videlicet (Latin), namely
i.e.	: that is
Sl.	: Serial
No.	: Number
Fig.	: Figure
am	: Ante-Meridiem (Latin), midnight to noontime
pm	: Post-Meridiem (Latin), post-midday period
°C	: Degree Celsius
RH	: Relative Humidity
pH	: Potential of hydrogen
SPSS	: Statistical package for Social Sciences
ANOVA	: Analysis of variance
KOH	: Potassium hydroxide
&	: and
%	: Percent
P	: Probability

<	: Less than
>	: Greater than
I	: Group-1
J	: Group-2
N	: Number of paired ranks
Std.	: Standard
Sig.	: Significance level
SPSS	: Statistical Package for Social Sciences
QGIS	: Quantum Geographic Information System
